

Update From Ecuador

All of us in Ecuador are having an awesome time. We just wrapped up the last day of our first session of VBS. It can be so hard to say good bye to the kids we have shared so much love with. We had at least 30 kids give their lives to Christ which was awesome to see.

We have had the opportunity to do our evangelistic presentation using our drama and student testimonies 7 times so far. All students who have given their testimony have done an awesome job. We have also seen many people give their lives to the Lord through the presentations as well.

We took over the services at two different churches on Sunday where high school ministries leaders Brent and Jim gave sermons and our students did some music and ran the Sunday school. We saw 6 people give their lives to Christ in one of the services and the local churches will be following up.

Our VBS leaders are doing a great job and are excited about starting the new sessions tomorrow.

Our health has been fantastic so far. We have had a few students with upset stomachs but nothing that Immodium couldn't fix. Our students even seem to be getting used to doing hard work in the altitude.

Please continue to keep us in your prayers. They are greatly appreciated and we have seen so many prayers answered here over the last six days.

Richard
