

***March 1, 2010***

Stewardship in the church takes many forms, both in methods and in areas toward which it may be directed. An area to which most people do not have reason to give a lot of thought is facilities. We are unique in our area and among other Presbyterian churches in the fine and well planned facilities that we are able to use and enjoy. There are countless groups, both within our church body and outside of our congregation that have the opportunity use and enjoy these facilities. With over 80,000 square feet of area, we have a space that meets nearly anyone's needs. The value of these facilities exceeds \$15,000,000. The cost of staff and equipment to operate our campus is very substantial. With a budget that is continuously tightening, we are always under pressure to find ways to tighten our belt. We have never have had the luxury of building a reserve fund to cover the cost of replacing large components as they wear out, such as heating and cooling components, roof sections and the large areas which are carpeted. If you want to make a designated gift to our church, either now or as a testamentary gift, we hope that you will think of our large facility and its needs.
